

hello world.

laravel is an **open source, feature rich, php mvc framework** with an unbelievable ecosystem and global community around it.

laravel chennai community is an amalgamation of noobie-beginners to seasoned-veterans from **Singara Chennai** who all share the common love of code.

laravel has truly changed our lives; or at least how we look at full-stack development.

we would love to share that with you and have you as a part of our community.

interested?

flip the page, scan the QR, fill the form.
see you on the other side.
